PROJECTS

FLUTTER APP | www.github.com/viniciusleonel/flutter_kickstart (UNDER DEVELOPMENT)

DART, FLUTTER

This is a simple Flutter application that demonstrates the creation of a study task list with different levels of difficulty. As you progress in your studies, you increase your level until you reach the maximum level upon completing your studies.

TODO MICRO-SAAS | www.github.com/viniciusleonel/micro-saas-sample

HTML, TAILWIND CSS, TYPESCRIPT, REACT, NEXTJS, AUTHJS, ZOD, STRIPE, SQLITE, PRISMA, SHADCN/UI, RADIX UI, GOOGLE OAUTH, GITHUBOAUTH, MAILTRAP

This micro-SaaS task management platform allows users to create, update, delete, and view tasks, as well as filter and sort them. Login is available via Google, GitHub, or email using a magic link and Mailtrap. Stripe is used to process payments and enable plan upgrades, with the Stripe CLI required to receive payment and plan updates through webhooks.

VOLLMED RESTFULL API | www.github.com/viniciusleonel/vollmed-api

JAVA, SPRING BOOT, SPRING DOC, SPRING SECURITY, SPRING DATA JPA, JWT, SWAGGER, HIBERNATE, UNIT, DOCKER, POSTGRESQL, GITHUB

The VollMed API is a Java application developed with the Spring Framework, designed for managing a medical clinic. With JWT authentication features, the API allows for the registration of doctors, patients, and appointments, and provides public endpoints for user login and registration.

WHEATER APP | www.github.com/viniciusleonele/weather-app-kotlin

KOTLIN, JACLPACK COMPOSE, RETROFIT, API HGBrasil

The Weather App is an application that consumes the HGBrasil weather API and uses Retrofit to query the weather forecast for a specific city. It displays data such as minimum and maximum temperature, chance of rain, wind speed, and more.

 - Business English Course (INFINITY ENGLISH COLLEGE – 2017)
 - Certification in ESOL international Speaking and Listening (English) CEFR Level B2.1 (TRINITY COLLEGE LONDON - 2017)
-

WORK EXPERIENCE

FREELANCE

São Paulo, SP

JANUARY 2019

Currently, I work as a freelancer, undertaking projects for my former company as a Product Designer, while focusing on studies to build my career as a developer.

EXCHANGE PROGRAM

Dublin, Ireland

MAY 2017 – NOVEMBER 2018

I completed an 18-month exchange program in Dublin, Ireland, where I had the opportunity to deepen my English skills through native courses and daily work practice. During this time, I focused on improving my language proficiency as well as refining my communication and customer service skills. I worked as a restaurant attendant, interacting with people from various nationalities and using English as the primary means of communication. My role involved customer service both in person and over the phone, providing a multicultural experience that significantly strengthened my interpersonal skills.

PRODUCT DESIGNER 2D/3D

Formas Kunz - Franca, SP

FEBRUARY 2007 – MAY 2017

Manual and virtual modeling of shoe lasts, including alterations, measurement verification, design, and general modifications. Utilized Geomagic for scanning lasts, correcting defects, and compressing files. Employed Rhinoceros for modifying digitized designs, constructing insoles and templates, scaling adjustments, template coordination, mesh construction, and creating files for machining. Used Romans 2D/3D for creating 2D molds and insoles, 3D modeling of lasts, scaling adjustments, and error correction.
